**COMPARE! P4 Mobile is much more expensive than "Power Hungry" and "HOT" desktop processors used in some notebooks.** The Sony VAIO is powered by the Intel Pentium 4 Mobile Processor which features enhanced Intel SpeedStep® technology. It helps to optimize application performance and power consumption, and Deeper Sleep Alert State, a dynamic power management mode, adjusts voltage during brief periods of inactivity-even between keystrokes-for longer battery life. Bottom Line: You get speed, power, and efficiency in one package.

# VAIO UXGA NOTEBOOKS! PREMIUM 16" QUALITY!

## SONY VAIO PENTIUM-M 4 1.8GHz, 256MB DDR

FROM **$1499.99*** 

**What is UXGA?** UXGA (Ultra Extended Graphics Array) is a display mode in which the resolution is 1600 pixels horizontally by 1200 pixels vertically (1600 x 1200). This amounts to a total of 1,920,000 pixels on the screen.

An UXGA display might be preferred by computer users who want or need fine detail. UXGA displays also allow the user to specify up to four 800 x 600-pixel images at a time, with reasonable detail in each. An example of such an application is the reception of a television (TV) program while browsing the Web, and at the same time working in a word processor and a vector graphics program. Scientists and engineers can make use of the high resolution and large screen size when working with computer-aided graphics (CAD) programs, especially three-dimensional (3D) rendering.

An UXGA display provides 6.25 times as many pixels as a 640 x 480 display, four times as many pixels as an 800 x 600 display, and approximately 2.44 times as many pixels as a 1024 x 768 display. Modest-sized liquid crystal display (LCD) panels with the UXGA specification offer a level of detail comparable to print on paper.

- Intel Pentium 4-M 1.8GHz Processor
- 400MHz Front Side Bus / 512KB L2 Cache
- 256MB PC2100 DDR Memory
- 30GB Removable Hard Drive
- 24x24x10x24x8x DVD/CD-RW Combo or DVD Drive

It's called the HotBrick—and it delivers affordable high performance security at an amazingly low price. HotBrick firewall offers advanced DUAL WAN technology (connect 2 DSL/Cable modems, so your business never has down time). But that's just the beginning. HotBrick also features Advanced SPI (Statefull Packet Inspection) technology that insures only trusted traffic gains access to your internal network. With HotBrick's embedded URL filtering application you can block out traffic by URL, thus giving you better employee productivity! The Intrusion Prevention System keeps unauthorized traffic out with the world's most powerful technology—and the HotBrick is scalable—with built-in VPN and network management for up to 250 users! As your business grows, the HotBrick has the power to keep your network safe. Easy to set up—installs in 19-inch rackmount system (mounts included) and features secure remote software. Don't take chances. Get a HotBrick!

# CONTROLS ACCESS. PROTECTS DATA.

## SECURIKEY. BREAKTHROUGH TECHNOLOGY FOR EVERYDAY USERS.

Keep your home or office computer safe from prying eyes with this latest version of the SecuriKey System from Griffin Technologies, LLC. SecuriKey is a small USB token that, when inserted into your computer's USB port, acts like a key that allows you to access your computer. And just like your car, no key — no go. Even if someone steals your laptop and guesses your password, they will not be able to get to your files without your SecuriKey token.

The SecuriKey System brings "two-factor authentication" to a Windows logon. This is the same level of security that makes your ATM card secure. The two factors are: "something you know" and "something you have". In the case of your ATM card, the "something you have" is the plastic card and the "something you know" is your PIN. And now for your computer system, the "something you know" is your Windows password and the "something you have" is your SecuriKey USB token. The SecuriKey System is simple to install and simple to use. Installation is wizard driven and takes about 5 minutes. To use SecuriKey, simply insert it into any available USB port on your computer and type in your password. If you need to leave your computer (to go to a meeting or out to lunch), simply remove the SecuriKey token and your system locks until you return. Insert the token and type in your password and you are right back where you left off.

$129.99

- Controls Access

## Write To Your PDA Instantly!

The *InnoPAD!* lets you make handwritten notes with pen and paper which are then relayed to the PDA via an infrared connection. As you write on the InnoPAD!, a digital copy of your writing simultaneously appears on your PDA. These images can then be viewed, organized, e-mailed or converted to files for use in virtually all Windows® applications. The pen automatically transmits your notes to the InnoPAD! digitizer. Flip over the pen and it doubles as a PDA stylus, so you won't have to switch back and forth while using your PDA and the InnoPAD!

## USB 10/100Network Print Server — $74.99

The JetLAN3250 10/100 USB Print Server is a powerful and convenient way to connect your USB printer to a network By supporting multiple servers and protocols, the JetLAN3250 allows you to print from any computer to any USB printer on the network. The JetLAN3250 supports popular network protocols such as Microsoft® NetBEUI, and Novell® IPX/SPS.

**Please note the following:** USB printers below do not support a remote connection and will not work with the JetLan3250:

- All multi-function devices
- Any printer that uses customized software (Laserjet 1000 family, some Lexmarks, etc)

Check with your printer manufacturer to confirm if your model is networkable. If Windows has a built-in driver for your model or model family, the JetLAN3250 will work with your printer.

# Share Your Printer On The Network Without A Dedicated PC!

### 10/100 Network Print Server

CABLES TO GO

The palm-sized Cables To Go JetLAN 3110 10/100 Internet Print Server is the most convenient way to connect your printer to a network. It provides an auto-sensing 10/100 RJ-45 port, allowing flexible attachments to either 10BaseT or 100BaseTX networks without the need for a dedicated PC print server. Easily connect to any printer and print documents — even over the Internet — just by specifying the device's URL. The JLP3110 also supports multiple servers and multiple protocols, which will allow you to print from anywhere, from any computer and from any application.

***FEATURES...***
- Palm-sized unit provides an auto-sensing 10/100 RJ-45 port, allowing flexible attachment to 10/100 Base-T networks without the need for a dedicated PC print server
- Supports multiple servers and multiple protocols including IPX/SPX, NETBEUI, TCP/IP, IPP, DHCP, SNMP & AppleTalk
- Includes A/C power adapter, 3.5in setup diskette, and owner's manual
- Built-in Web Management feature configuration and monitoring of the unit from anywhere via a web browser.

# THE COMPUTER-CONTROLLED CD ORGANIZER!

## Store, Search And Retrieve Your CDs Instantly! Smash Hit! Just... $99.99*

*After Rebate.

The CD Organizer allows you to store and organize all of your CDs (Music, Video, DVDs, CD-Rs, CD-RWs, Game CDs and more). With the CD Organizer, no more stacks or scattered piles to sort through and jewel cases to store.

***Read and Store Disc Contents Automatically.*** The CD Organizer software uses your CD-ROM or DVD-ROM drive to read and store disc contents automatically — eliminating manual entry!

***Easy Disc Storage.*** Once disc titles and file names are stored, remove the disc from the CD-ROM drive and place it on the motorized tray that pops out.

***View Disc Contents.*** The CD Organizer software allows you to view the titles of stored discs on one screen. It also lets you view the disc contents (filenames and directory names).

***Quick Disc Retrieval.*** To retrieve a disc, simply double-click on a title from a list shown on your screen and a tray pops out with the disc. To return a disc, double-click on the corresponding title on your screen and place the disc on the tray that pops out.

***Locate Files Quickly and Easily.*** Here's where the CD Organizer shines! Looking for a document or image but can't remember what disc it was saved on? Do a disc search by providing a title, keyword, filename or directory name.

***Lend A Disc Feature.*** Lend out discs and the CD Organizer reminds you when they are due back.

***Use Without A PC.*** The keypad on the top of the CD Organizer tower allows direct disc access if you choose not to use your PC.

***NEW FEATURES!***

***View Thumbnail Images:*** Assign thumbnails to entries. Scan CD or DVD cover and save as a thumbnail. Find your entry faster by recognizing covers.

***View Log.*** View a list of who removed or added discs. Great in a multi-user enviornment

# CAPTURE AND STORE UP TO TEN HOURS OF VIDEO TO DVD!

### RECORD LONGER THAN EVER BEFORE POSSIBLE!

Attention TV and Camcorder lovers! Now you can actually record TV or convert recorded video—to DVD! It's fast and easy—with the hottest new product of this issue: The ConvertX! It's the world's FIRST MPEG-4 encoder—and we've got it! Real-time recording! ConvertX offers the unique choice of three encoding formats: MPEG-1, for recording one hour of premier quality video on a VCD; MPEG-2, for up to two hours of high quality video on a DVD; and, for exceptional hard disc space-savings, MPEG-4. Capable of creating highly compressed video archives, MPEG-4 can be used to store 100 minutes of video on a standard CD or 10 hours on a DVD—that's right! TEN HOURS!. A Hi-Speed USB 2.0 connection maximizes data throughput to the host computer, enabling high bit rate video capture using MPEG-2 compression. It's the ONLY technology that enables you to capture and store so much! MPEG-4 is the awesome new standard! ConvertX is th ideal companion product for your CD-RW and DVD-RW Drive.

# BURN VIDEOS ON DVD OR CD!

## CONVERT, CREATE, AND SHARE YOUR HOME VIDEOS ON DVDS!

adaptec

Adaptec Video Converter CD USB-Device Kit (VIDEOh! CD) provides the easy way to preserve analog camcorder movies digitally then create easy-to-share Video CD discs with your home computer. VideOh! CD includes a USB 1.2 video capture device with USB cable for simple connectivity to your PC. It also includes Sonic MyDVD video creation software for Windows, which allows you to edit, organize and burn video clips, using your CD burner.

**Convert** Connect your camcorder to the VideOh! device, then simply transfer your video into your PC. Your video automatically converts into high-quality digital format.

**Create** Just select your favorite clips, trim your footage, or have fun adding sound, titles, and special effects to create Hollywood-style DVDs with advanced scene selection.

**Share** Watch your finished project on any home DVD player. Use interactive menus to jump to your favorite scenes. Then share your personalized Video DVDs with family and friends.

**Why convert from VHS?** Just how long do VHS tapes last? Don't assume they'll last forever. All forms of magnetic data, such as VHS and Hi8 tapes, have a short life span. They may last only ten years, even in ideal conditions. Adaptec VideOh! makes it easy to preserve your cherished video memories on CD media that lasts ten times longer.

LEXAR Media™

# SPEED ADVANTAGE!

## SPEED ADVANTAGE The Wait Is Over! Capture Faster, Shoot Faster!...

If you've ever missed a shot with your digital camera—because your camera can't capture images fast enough, you're using the wrong digital media! The problem is that you must wait while your camera actually "stores" the data on the media card. And that's where Lexar comes in. Lexar stores data faster than any other media manufacturer, and that means you can shoot almost continually, depending on the media type you select. NO OTHER DIGITAL MEDIA can match Lexar's speed!

## CF COMPACT FLASH

**Quality, reliability, speed—and the lowest prices anywhere! Guaranteed. Don't settle for anything less than Lexar!**

**The Best Keyboard And Mouse Ever!**

Engineered for superior touch—and flawless performance!Upgrade your old keyboard and mouse with the best in the business—from Logitech! And while you're at it—CUT THE CORD! Wireless is the way to go, and nobody does it better than Logitech. The award-winning keyboard and mouse duo is now priced lower than ever! If you're using an old-fashioned "ball" mouse, you'll love the accuracy and hassle-free operation of this OPTICAL mouse! Why settle for a cheap keyboard? Upgrade your data input devices—and save!

**INCLUDES CORDLESS OPTICAL MOUSE**

**Why An OPTICAL Mouse?** The problem with ordinary "ball" mice—like the one that came with your PC—is that the ball picks up dirt and dust which is then "rolled" up into the mechanisms of the mice. The result is that they become less accurate, they can get "stuck" or sluggish. The Logitech optical mouse uses no ball—the movement is registered by a laser beam and transferred to the electronics. No dirt, no dust—and NO LOSS OF ACCURACY! It's the best mouse you can buy!

## PYRO A/V Link

JUST **$189.99**

### The Missing Link In DV Video

Capturing DV from a Digital camcorder is fantastic, but what about all of the video content you have in other formats (8mm, beta, VHS, DVD), how do you get that content into the DV format? PYRO A/V link solves the problem by converting any analog video source into DV. DV video looks great but when you want to send it to tape your options are limited. You can export back to your miniDV camcorder, but it's hard to share a miniDV tape with Grandma. PYRO A/V link bridges the gap by allowing you to export DV video to any analog video recorder. Capture and edit your video, then output to VHS and share tapes that anyone can watch!

***Capture, Edit, Export...*** With PYRO A/V link you can capture from any video source, including DV camcorders. Mix and match your video content, edit the video with Video Studio 6 SE DVD and add effects, narration, background music and more. When your video production is a wrap, export to any VCR or VTR, save as MPEG-2 and burn a DVD or publish to the Internet.

- External FireWire/1394 device
- Converts analog (RCA, S-VHS or Component Video) to DV video format
- Export DV Video to analog video tape recorders (RCA, S-VHS)
- Convert between devices (from DV to Analog or Analog to DV) without using a computer
- Capture from DV camcorder with full device control
- Edit with powerful editing software
- Create VCD, SVCD, DVD disks

## Wireless Base Station

### FEATURES AND BENEFITS

**Easy-to-use Setup Wizard**
The Setup Wizard helps you quickly connect multiple computers wirelessly in your home or small office. You'll be able to share your broadband Internet connection, files, and printers in no time at all.

**Step-by-step instructions**
A fold-out Start Here guide complements the Setup Wizard, offering step-by-step instructions on installing, configuring, and connecting the base station quickly.

**Ethernet capability, too**
This base station is far more than a centerpiece for a wireless network - its 4-port switch can also accommodate as many as four additional wired computers.

**Quick data transfer**
Enjoy data transfer rates of up to 11 Mbps for wireless connections and 100 Mbps for wired connections - that's significantly faster than a typical broadband connection.

**Built-in security features**
Provides strong security features including a built-in hardware firewall, Network Address Translation (NAT), and 128-bit Wired Equivalent Privacy (WEP) turned on by default.

**Wireless freedom**
Roam inside or outside your house or small office when you add a Wi-Fi equipped notebook computer.

**Universal Plug and Play**
Offers seamless voice messaging, video messaging, games, and other UPnP applications.

**Microsoft Broadband Network Utility**
Allows easy monitoring of your network status, and provides product-specific Help topics.

**More than a router**
The Wired Base Station is a router with an integrated 4-port Ethernet switch, allowing you to accommodate four wired users out of the box. Each port is an up-link port that allows you to connect up to 253 computers to your base-station/router.

**Built-in security features**
Provides strong security features that include a built-in hardware firewall (SPI) and Network Address Translation (NAT).

**Encrypted remote logon to another network**
Includes virtual private network (VPN) support to help enable encrypted remote logon to another network.

**The network centerpiece, for connecting multiple computers in your home or small office**

Now you can wired or wirelessly connect multiple computers in your home or small office to the Internet through a broadband Internet connection — and then enjoy lightning-swift file and printer sharing and multiplayer games.

# RECEIVE PHONE CALLS WHILE ONLINE JUST ONE LINE NEEDED!

Emerson Switchboard is the solution to the age-old problem of "what happens when you're online and the phone rings?" The fact is, we sell out every shipment that comes in. It's so practical, so easy to use and so affordable—it's easy to see why! Emerson Switchboard solves a problem we all have—what happens when you're online—with just one phone line—and a phone call comes in? You've got to either bail out of your web work—or ignore the call. Those days are over. Emerson Switchboard allows you to receive incoming phone calls and faxes while surfing the Internet. How?—by putting your Internet connection on hold! You'll never have to disconnect to take an incoming call again! And that's not all. You'll enjoy the added capability of switching your incoming calls to answering machine or fax machine if not on line! If you're a dial-up surfer—with AOL, NetZero/Juno, or other ISP, you need a Emerson Switchboard!

***Small, compact size!***

When a voice call comes in, just answer it as you normally would! After you've finished the call, go right back to surfing the web!

## Emerson Switchboard

***Smash-Hit Accessory! And It's The handiest little device in your home or office! One phone line does it all!***

Emerson Switchboard is an advanced phone-line-sharing device that is compatible with ANY PC platform, and any phone line. With it, you can remain on the Internet indefinitely—without missing an incoming call or fax.

When a fax comes in press the start button on the fax machine.

Emerson Switchboard routes your incoming call to phone or fax machine by putting your Internet connection on hold. Just plug in all your devices into the Emerson Switchboard unit and it goes to work!

# MAKAU CORPORATION TRAINING AND CERTIFICATION!

## Security+

Security+ certification is recognized around the world as the benchmark for foundation-level security professionals. Incorporating a comprehensive range of security knowledge areas, Security+ was developed with input from industry, government, academia and front-line practitioners, so you can be assured of its relevance. Microsoft participated with CompTIA(tm) to develop Security+ and has implemented Security+ into the MCSA and MCSE such that it fulfills some of the Microsoft certification security requirements.

# CORSAIR OVERCLOCKING MEMORY

## Introducing Low Latency And Dual Channel TwinX DDR Memory!

XMS Low Latency Memory Modules are DIMMs that have been optimized for performance at a given clock frequency and easy for the end-user to operate. This is accomplished by first testing modules in an environment that optimizes latency settings, rather than optimizing for memory bus speed. Second, the SPD is configured with these aggressive latency values, rather than more conservative JEDEC standard values. Dual Channel TwinX memory are matched pairs of Low Latency modules that are tested together in a dual channel environment.

This is the extreme memory gamers have been raving about! Now Corsair presents the first memory modules for use in overclocking! Gamers and other power-hungry PC users know that today's processors are capable of operating MUCH FASTER than their specified speeds. XMS products are guaranteed by Corsair to operate at over-clocked speeds—so you get MORE SPEED for your money! Not just from an overclocked processor—but from the memory as well. This speed increase blasts you into a higher computing level! XMS modules include Platinum Silver heat spreaders for cool operation.

# ULTRA
PREMIUM PERFORMANCE MEMORY

EXTREME GAMER MEMORY

With the explosion of advanced graphics and gaming, we've scoured the industry for the best of the best, looking for the fastest and most reliable overclocking memory. ULTRA memory is precision-manufactured, featuring dual-bank technology, and screened for spectacular gaming performance. No other brand can match it. With scores of compatibility tests, using today's best-selling motherboards, we found that ULTRA delivers the top-rated performance. Fully certified to operate at higher speeds, ULTRA is our overclocking memory of choice. All ULTRA overclocking memory modules deliver sub five nanosecond access times, and have been 100% tested and verified to operate at 434MHz in high-performance KT-400, NVIDIA nForce 2, SIS655 and P4X400 motherboards (with CL2 latency). Conclusive benchmark tests have been conducted with multiple chipsets, CPUs and motherboards, your assurance of highest possible speed and uncompromising compatibility. All ULTRA overclocking memory modules feature integrated aluminum heat spreaders for optimum thermal dispersion and increased performance. Of course, you'll enjoy a lifetime limited warranty. Looking to the future of high-speed memory, ULTRA memory is SPD programmed at emerging JEDEC values for PC3200 rating. If you're looking for the best overclocking memory, at the best prices, ULTRA is the only choice. Unmatched value, lightning speed and reliability you can take to the bank. We highly recommend and proudly present ULTRA overclocking memory.

S457-2021 **Socket A/370 Fan—Aluminum** (up to XP3200+) . . . **$22.99**

### Genuine Intel Socket 478
6

- Ball bearing fan with aluminum heatsink
- 4200RPM fan
- For CPUs up to 2.8GHz

TC1-1026 **Intel Socket 478** up to 2.8GHz . . **$18.99**

- Thermal compond material bridges the heat source and heat sink to provide low thermal resistance.

S457-4000 **Thermal Gel Tube 4X** . . . . . **$3.99**
E83-1002 **Silver Thermal Gel** . . . . . **$2.99**

### Intel Socket 478 Pentium 4
6

- 80mm Ball bearing fan with aluminum heatsink
- High-speed 4800RPM fan
- For CPUs up to 2.8GHz

**$16.99**

S457-1020 **Speeze Socket 478 P4** . . . . . **$16.99**

## Award Winning CoolMax Cooler Series!

### Socket A/370

- Ball bearing fan with aluminum heatsink
- 4200RPM fan
- For CPUs up to 3.06GHz

S457-1003 **Speeze Socket 478 P4** . . . . . **$19.99**

### Socket A/370
2 5

- Ball bearing fan with aluminum heatsink
- 4800 RPM fan
- For CPUs up to 1GHz

S457-1012 **Duron & Celeron Fan** up to 1.0GHz . . . . . **$7.99**
S457-1000 **Socket A (1.4GHz)** . . . . . **$9.99**

### Socket A/370
2 5

- Ball bearing fan with copper core heatsink
- 4800RPM fan
- For CPUs up to 3000+

S457-1015 **Socket A/370** up to 2800+ . . . **$16.99**
S457-2015 **S A/370 Copper Core** 3000+ . . **$18.99**

### Socket A/370 Fan!
2 5

- Ball bearing fan with aluminum heatsink
- 2500RPM fan
- For CPUs up to 3000+

S457-2002 **Socket A/370 Fan—Aluminum** (up to XP3000+) . . **$19.99**

## Thermaltake Superior Thermal Coolers

### Socket A/370
2 5

- Ball bearing fan with aluminum heatsink
- 4800RPM fan
- For CPUs up to Athlon XP 2800+ or Celeron 1.13GHz
- Copper core.

T925-1052 **Socket A/370** (Up To XP 2800+) **$24.99**

### Socket 478
6

- Ball bearing fan with all copper heatsink
- 6000RPM fan
- For CPUs up to Pentium 4 3.0GHz and up.
- All copper.

T925-1050 **Socket 478** (3.0GHz and higher) **$29.99**

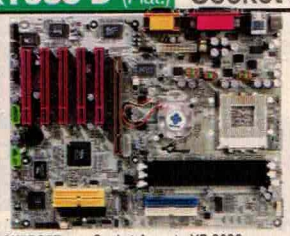
## Innovation By Design!

### KT333 D (Plat.) Socket A

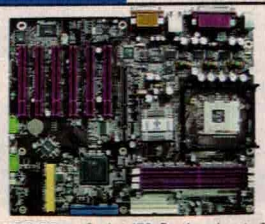


**CPU SUPPORT** Socket A; up to XP 2600+
**BUS SPEED** Up to 266MHz
**AGP/PCI/ISA** 1/5/0 Slots
**MAX. MEMORY** 3 DIMM / 3GB DDR 333
**CHIPSET** Via KT-333
**IDE CONTROLLER** Ultra DMA 133

**ATX Formfactor, 8X AGP Port, SPDIF+ 6 Channel Audio, Sigma Box, USB 2.0, IDE RAID, and supports DDR 266/333**

| Item No. | Description | Price | Compatibility |
|---|---|---|---|
| S450-2022 | **KT333 D Plat MB** | **$99.99** | 2 B |

### P4I845PE Socket 478



**CPU SUPPORT** Socket 478; Pentium 4 up to 3.0GHz
**BUS SPEED** 400/533MHz
**AGP/PCI/ISA** 1/6/0 Slots
**MAX. MEMORY** 3 DIMM/2GB DDR333
**CHIPSET** Intel i845PE
**IDE CONTROLLER** Ultra ATA/133 and RAID

**ATX Formfactor, 4X AGP Port, Onboard 4-Channel Audio, 10/100 LAN and 2 USB 2.0 Ports**
**Supports Hyper-Threading Technology**

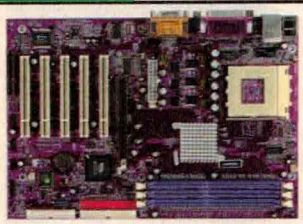
# Mach Speed Motherboards!

## Motherboards With A Lifetime Warranty!

### V400DBL Socket A



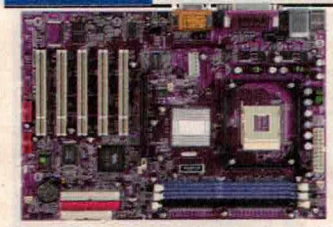
**CPU SUPPORT** Socket A; up to XP 3000+
**BUS SPEED** Up to 333MHz
**AGP/PCI/ISA** 1/5/0 Slots
**MAX. MEMORY** 3 DIMM / 3GB DDR 333/400
**CHIPSET** Via KT-400
**IDE CONTROLLER** Ultra DMA 133

**ATX Formfactor, 8X AGP Port, AC '97 Audio, 2 USB 2.0, 10/100 LAN and supports DDR 266/333/400**

| Item No. | Description | Price | Compatibility |
|---|---|---|---|
| M450-2005 | **V400DBL MB** | **$59.99*** | 2 B |

**After $30 Mail-in Rebate. Expires 8/31/03*

### P4XFCP Socket 478



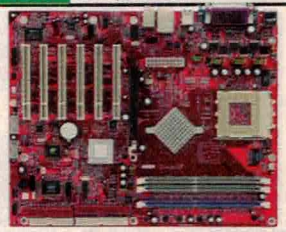
**CPU SUPPORT** Socket 478; Pentium 4 up to 2.8GHz
**BUS SPEED** 400/533MHz
**AGP/PCI/ISA** 1/5/0 Slots
**MAX. MEMORY** 2 D/2GB DDR 1 D/1GB SDRAM
**CHIPSET** Via P4X266E
**IDE CONTROLLER** Ultra ATA/133

**ATX Formfactor, 4X AGP Port, Onboard Audio, 10/100 LAN and 2/4 USB 2.0 Ports**

| Item No. | Description | Price | Compatibility |
|---|---|---|---|
| M450-1005 | **P4XFCP MB** | **$49.99†** | 6 B |

*†After $10 Mail-in Rebate. Expires 8/31/03*

### K18P Socket A



**CPU SUPPORT** Socket A; up to XP 3000+
**BUS SPEED** Up to 333MHz
**AGP/PCI/ISA** 1/6/0 Slots
**MAX. MEMORY** 3 DIMM / 3GB DDR400
**CHIPSET** nVidia nForce2
**IDE CONTROLLER** Ultra DMA 133 w/ SATA

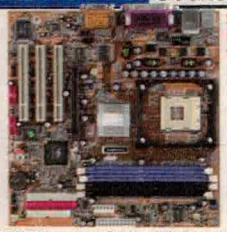
**ATX Formfactor, 8X AGP Port, 6 Channel Audio, dual 10/100 LAN, Firewire, 6 USB 2.0 and SATA**

| Item No. | Description | Price | Compatibility |
|---|---|---|---|
| M450-2007 | **K18P MB** | **$119.99*** | 2 B |

**After $30 Mail-in Rebate. Expires 8/31/03*

### P4MFP533T Socket 478

Supports Hyper-Threading



**CPU SUPPORT** Socket 478; P4 up to 3.06GHz
**BUS SPEED** 400/533MHz
**AGP/PCI/ISA** 1/3/0 Slots
**MAX. MEMORY** 2 D/2GBDDR-2 D/2GB SDRAM
**CHIPSET** Via P4M266A
**IDE CONTROLLER** Ultra ATA/133

**ATX Formfactor, 4X AGP Port, Onboard 4-Ch Audio and AGP II Video, 10/100 LAN and 2 USB 2.0 Ports.**

| Item No. | Description | Price | Compatibility |
|---|---|---|---|
| M450-1006 | **P4MFP533T MB** | **$59.99†** | 6 C |

# D-Tek Water Cooling Systems!

D-Tek introduces the ultimate computer cooling system. This unique cooling system uses water and radiator technology to cool your computer just like a car. Water coolers keeps hot running components like processors, video cards and chipset running cool to the touch. The cooler your system runs the faster it can operate! Liquid cooled PCs also produce less noise than traditional ball-bearing fan driven systems.

# ICEberg Liquid Cooling System

### Liquid Cool Any System!

The ICEberg Liquid Water Cooling kit includes everything you need to make your ordinary case into a liquid cooled show stopper. Just add your own distilled water and you're ready to go!

The Iceberg water cooling system boasts CPU cooling that beats any traditional air-based cooling method. With the Iceberg, you'll notice the performance difference when the temperature of the processor drops up to 30 degrees. It regulates the temperature of the CPU better than a fan, and it does so without any noise. The full set includes all of the elements you need to maximize the efficiency of your processor and prevent leaks. It's easy to install, even for novices, and does not require you to modify your PC case. It fits a wide range of AMD and Intel processors.

## Featuring 90 DAYS SAME AS CASH!

**No Interest Option With Minimum Monthly Payments!**

Financing available with approved credit. The Tiger Gold Card is issued by Wells Fargo Financial National Bank. Special terms of 90 days no interest option with minimum monthly payments will apply to purchases charged with approved credit to your Tiger Gold Card issued by Wells Fargo Financial National Bank. Regular minimum monthly payments are required during the option period. The no interest option means there is no interest if your purchase is paid in full within 90 days after the date the purchase is shipped; otherwise, interest accrues from date the purchase is shipped at the regular APR for purchases. All items shipped on the same date are considered part of the same purchase for this purpose. The regular APR is 21.9% as of April 1, 2003. The APR may vary.

# Doing Business WITH TigerDirect.com

## HOW TO ORDER

**BY PHONE:** Call us at (800) 888-4437 and one of our representatives will be happy to help you. We're open 24 hours a day, 7 days a week. International customers call us at (305) 415-2201. For faster service, please have your Customer Number and Source Code from the back cover when you call.
**ON THE WEB:** Visit www.tigerdirect.com.
**BY FAX:** Fax orders to us at (305) 415-2202.
PAYMENT: VISA, MasterCard, American Express, Discover Card, Carte Blanche, Diner's Club, personal checks and money orders. We DO NOT CHARGE YOUR ACCOUNT until we have SHIPPED your order! Most personal and some company checks may be held up to 10 business days.

**SHIPPING AND HANDLING RATES:** Our customer-friendly shipping schedule is calculated on the ACTUAL WEIGHT of your shipment and the TYPE OF SHIPPING SERVICE specified (ground, air or overnight). Shipping and handling charges will be applied to all orders placed with us. If your order must be shipped in multiple boxes, or in separate shipments because an item is not in stock and must ship at a later date, shipping and handling charges for the entire order will be assessed at the point when the first item is shipped. We charge only ONCE for shipping and handling, for the entire order.

**Return policy and limited guarantee against defects:** Every third party product you buy from TigerDirect is backed first by the product manufacturer's warranty. Tiger's 30 day limited warranty against defects, may also apply. Tiger's 30 day limited warranty is a defective exchange policy that provides for either repair or replacement (at our sole discretion) of merchandise that has been confirmed as defective by either the manufacturer or Tiger. Leased merchandise is not eligible for this warranty. Due to licensing and copyright laws, we do not accept returns on software once package has been opened. Defective software will be exchanged for the same title only according to Tiger's limited 30 day warranty described above. Hardware confirmed as defective by the product manufacturer or Tiger will either be exchanged or repaired at our sole discretion within the first 30 days of ownership only. After 30 days the product manufacturers warranty is the only warranty in effect. Terms and conditions may vary by product or manufacturer. Tiger will assist customers whenever possible in gaining satisfaction with product manufacturers. For assistance or to exchange a defective product please call (800) 888-6111. Products returned for exchange must be in new condition, original packaging and include all disks, registration cards, packing materials and other accessories and be received within 30 days of the original invoice date. We reserve the right to refuse for return or charge a restocking fee for damaged or incomplete returns. No returns will be accepted without an RA number issued by Tiger or when the product manufacturers or distributors return policies supercede ours.

**TIGER'S PRICE GUARANTEE:** At point of sale we will match any nationally advertised printed mass circulation prices on the same in-stock items/offers. Just show us the published price, and we'll match it with a Tiger credit good for anything else we sell! Vendor, below-cost or special price promos excluded. Due to fluctuations in the industry, prices on CPU, memory and products or bundles including CPU and memory are subject to change and we cannot offer price protection on these items in the event prices rise or fall.

**REGARDING BUNDLES:** Bundled items are included while supplies last. Items of similar or greater value may be substituted.
SPECIAL INFORMATION ABOUT TIGER BY SYSTEMAX AND SYSTEMAX SYSTEMS, KITS, MOTHERBOARDS, CPUs AND COMPONENTS: All Tiger by Systemax and Systemax brand systems, kits, motherboards, CPUs and components are supported and warranted only as originally configured . Software, hardware and accessories added by the user are not covered, and can void the limited warranty if installed improperly (and may have to be removed before your computer can be serviced). Warranty and support for monitors, printers, and other peripherals are provided solely by their respective manufacturers. Download or read our entire warranty on the internet at www.tigerdirect.com/warranty.

**TELEPHONE SUPPORT:** is provided by the respective manufacturer

**COMPLETE SYSTEMS** come with one year telephone hardware support and carry a one year limited on-site warranty unless otherwise specified in the ad. We reserve the right to repair or replace units determined defective on arrival. Sites in North America but outside the on-site service area will receive depot warranty in which case the computer must be returned to the warranty center by the end user.

**KITS** come with 90 days of telephone hardware support. Components diagnosed and determined to be defective, by a Tiger or Systemax representative are exchanged within this 90 day period.

**Motherboards** have a 30 day defective exchange policy. The respective manufacturer of each motherboard provides technical support.

**CPUs**, when purchased with a recommended fan and heatsink on the same order, come with a 1 year defective exchange only policy. Failure to purchase a recommended heatsink will void the CPU warranty. Returns will not be accepted. Hardware telephone support is provided for the first 90 days. Opened CPU packages will be inspected and tested upon return for defects and damage. Return credit will not be issued for damaged or working parts and they will be returned to you.

**REBATE COUPONS** Unless noted otherwise, all rebates are limited to ONE PER ADDRESS only. When redeeming your rebate be sure to read and follow all instructions carefully then mail the completed rebate form, along with all required documentation to the address specified on the rebate coupon. Be sure to mail the completed rebate form so it *arrives* before the rebate expiration date printed on the coupon. Most rebates require a sales receipt and an original UPC barcode from the product box. Many rebate coupons are available at: tigerdirect.com/sectors/rebates/index.asp. Collection/payment of rebates is between customer and manufacturer, Tiger assumes no liability or guaranty of payment of third party rebates.

**WARRANTY LIMITATIONS** There are no other express warranties or conditions respecting the equipment. Implied warranties, if any, are limited to the duration of the express warranty provided herein. Some States do not allow limitations on implied warranties, so this limitation may not apply to you.

**LIMITATION OF LIABILITY** In no event shall Tiger or any of its subsidiaries or affiliates be liable for any indirect, special, incidental or consequential damages including but not limited to loss of use, loss of data, loss of business or profits. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

**On-site Service Limitations**
- On-site service is only available after the customer and telephone technician determine that a hardware failure has occurred and the technician determine that service is required.
- Changes to the original configuration can void the on-site service contract
- Speakers, keyboard, mouse and other external components are excluded
- Malfunctions caused by external causes such as acts of God, lightening, power surges, negligence or failure to maintain the system in a proper operating environment are not covered
- Service is void where modifications, alterations,attachments or services are performed by persons other than Tiger or Systemax, etc.
- Onsite service may not be available in all locations.

## EXTENDED SERVICE CONTRACT

**Term and Coverage:**
- In some cases you may be required to ship your covered product for repair. Company will pay the shipping charges.
- The Service Contract covers defects in materials and workmanship that are the result of normal usage.
- Products may be repaired or replaced with a comparable product. Upon replacement, our obligations for the replaced product under this Service Contract are fulfilled.
- Replacement parts will be new, rebuilt, or non-original manufacturer's parts that perform to the factory specifications of the product at our option.
- The Service Contract provides power surge protection excess of any other insurance coverage, from the date of purchase on the product covered.
- All Service Contract coverage is applicable only to items, costs and time periods not covered by the express manufacturer warranty

here 2fix.com

**Purchaser Records:**
The Service contract and all original invoices and receipts are required for any service or product replacements or exchanges. Please keep them attached to the Service Contract and in a safe place.

**General Exclusions:**
The Service Contract does not cover repairs caused by accidental or intentional physical damage, spilled liquids, insect infestation, misuse, abuse, or service costs or damage caused by non-authorized repair personnel. Also not covered are replacement costs for lost or consumable parts (knobs, remotes, cartridges, drums, batteries, etc.), problems due to improper and/ or non - authorized installation or repairs, and cosmetic damage or defects that do not inhibit the proper operation of covered items.
- Service Contracts are not available or valid for products provided for public use or rental. Use of a product for these purposes will void this Service Contract.
- The Service Contract does not cover loss of damage to stored data, repairs related to software, computer viruses, display markings caused by video games or computer programs, or computer hardware that is added after the original purchase.
- The Service Contract does not cover broken or damaged laptop LCD screens. It does cover the failure of an electrical connection to the laptop LCD screen unless the cause of failure is otherwise excluded. This Service Contract does not cover special, indirect, consequential, or incidental damages.
- The Service Contract does not cover "no problem found" diagnosis.
- The Service Contract does not cover any malfunction, defect, breakdown, or disruption of any product functions or function of any related component or software arising from any design flaw caused by or arising from or related to, directly or indirectly, any design, planning or engineering incompatibility omission or deficiency with the incidence of any date, including, but not limited to the year(s) 1999, 2000 and 2001.

*Details of all limited warranties and service contracts are also available via fax at 888-444-2500 or online at:* www.tigerdirect.com/sectors/Warranty/index.asp

## CONVERT ANALOG INTO DV VIDEO

### ADS TECHNOLOGIES PYRO A/V Link

FROM $189.99

**The Missing Link In DV Video**

Capturing DV from a Digital camcorder is fantastic, but what about all of the video content you have in other formats (8mm, beta, VHS, DVD), how do you get that content into the DV format? PYRO A/V link solves the problem by converting any analog video source into DV. DV video looks great but when you want to send it to tape your options are limited. You can export back to your miniDV camcorder, but it's hard to share a miniDV tape with Grandma. PYRO A/V link bridges the gap by allowing you to export DV video to any analog video recorder. Capture and edit your video, then output to VHS and share tapes that anyone can watch!

**Capture, Edit, Export...** With PYRO A/V link you can capture from any video source, including DV camcorders. Mix and match your video content, edit the video with Video Studio 6 SE DVD and add effects, narration, background music and more.
